

## Zulberti is Hiring!

To implement our commercial sector we're looking for highly motivated candidates with strong commercial skills willing to work in dynamic and challenging environment.

### Our company

We are a consultant company in constant expansion, operating in Geoengineering, Remediation and Building sectors.

Based in Trento and Bolzano, our labor is mainly developed in the northern part of Italy but we're currently focusing on foreign projects to improve our business. We work both for private and public sector, with a deep focus on commercial building projects and schedule management.

A deep rooted background in our fields of operation and an highly skilled staff allow us to carry out demanding tasks with both accuracy and schedule respect.

### The role

We're looking for a commercial employee able to develop our business throughout all the northern part of Italy and outside Italian boundaries. Following a first period of training the resource shall operate independently but in strict coordination with the technical sector, developing existing clients and implementing new market area under board directives.

This role requires a natural inclination for travelling (about 80 % of the working time) and building relationships.

### The candidate

Minimum requirements:

Instruction: High school Diploma

Experience: at least 2-3 years of experience in commercial roles

Aptitude: dynamic, business oriented, used to working for objectives

Languages: english

Further requirements:

Instruction: BSc or above

Languages: german

Sector experience: preferably in consultant companies

### Salary and benefits:

Salary: commensurated to candidate expertise

Benefits: company car
